PRECIOUS METALS

for the glass industry

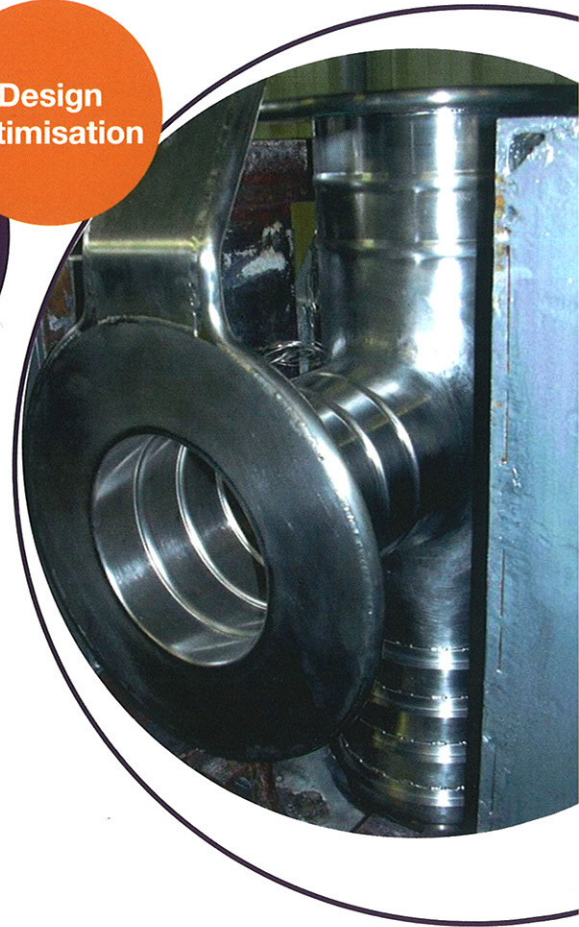

Reduce your investment costs without compromising the glass quality

Value analysis

Design optimisation

3 ways to optimise your precious metals requirements by using:

Switching to less expensive materials

periodic table of the elements

metals																		non metals		inert gases	
1 (K)																		2 (K)		18 (K)	
1																		2		18	
H																		He		He	
2 (L)																		3 (L)		10 (L)	
Li																		Be		Ne	
3 (M)																		4 (M)		18 (M)	
Na																		Mg		Ar	
4 (N)																		5 (N)		36 (N)	
K																		Ca		Kr	
5 (O)																		6 (O)		54 (O)	
Rb																		Sr		Xe	
6 (P)																		7 (P)		86 (P)	
Cs																		Ba		Rn	
7 (Q)																		8 (Q)		118 (Q)	
Fr																		Ra		Og	

Legend:
 ■ Liquids elements
 ■ Gaseous elements
 ■ Synthetic elements
