THERMAL GLASS PLANT AUDITING

Benchmark your glass process and your energy bill

Wide-ranging approach:

- Batch composition & evaluation
- Furnace audit and other ancillary equipment
- Process parameters and their adjustment
- Process fluid measurements
- Environmental emissions monitoring
- Global thermal efficiency and heat & mass balance
- Process comparison with our glass plants knowledge base

Audit services adapted to the glass industry:

Over 50 years of industry experience thanks to Arc International History

- From the batch house up to the spout bowl
- Assistance of our Laboratory for batch composition and glass analysis
- Dedicated team of specialists for each part of the process
- Measuring equipment adapted to harsh glass environment
- Conventional, mix-melter or special furnaces

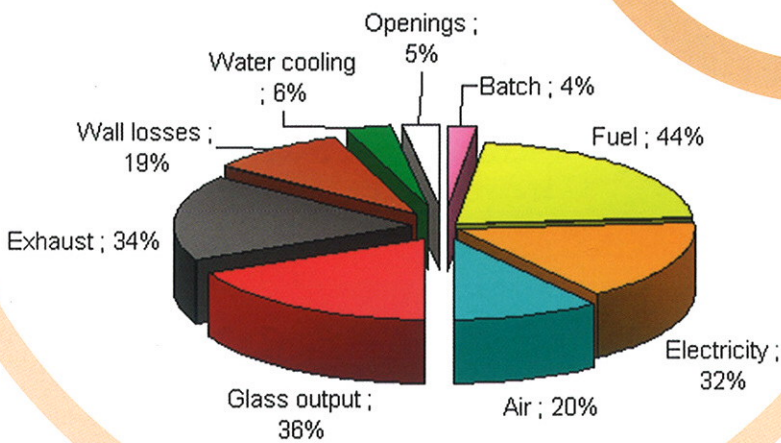

All types of glasses
