# FROM GLASS BATCH FEEDING

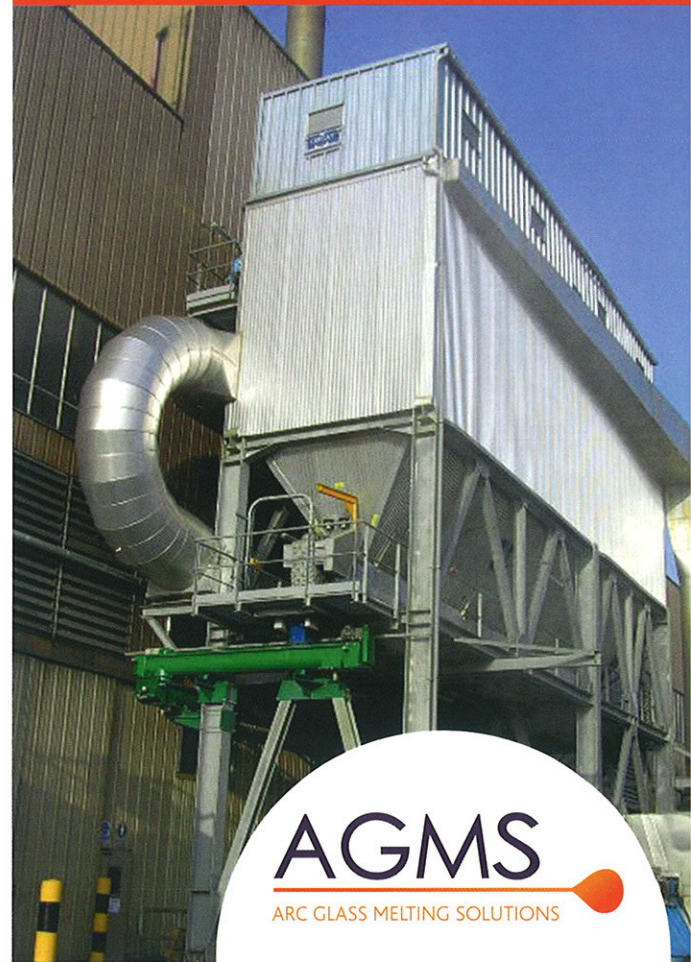

to waste gas treatment

## AGMS provides glass industry expertise for Project Management & Engineering Supervision

### For optimising your glass process:

- Define the boundaries between primary and secondary emission abatement techniques
- Define your project and engineering specifications
- Bring solutions regarding the new EU glass manufacturing regulations
- Cost estimate for full scale installation
- Technology and know-how transfer

# AGMS

ARC GLASS MELTING SOLUTIONS

### Many years of experience in the field of waste gas filtration:

- Bag filters with fabric material (glass fibres; polyamide)
- Bag filter with ceramic filter
- Bag filter with ceramic filter + integer Denox
- ESP type

# BATCH & CULLET

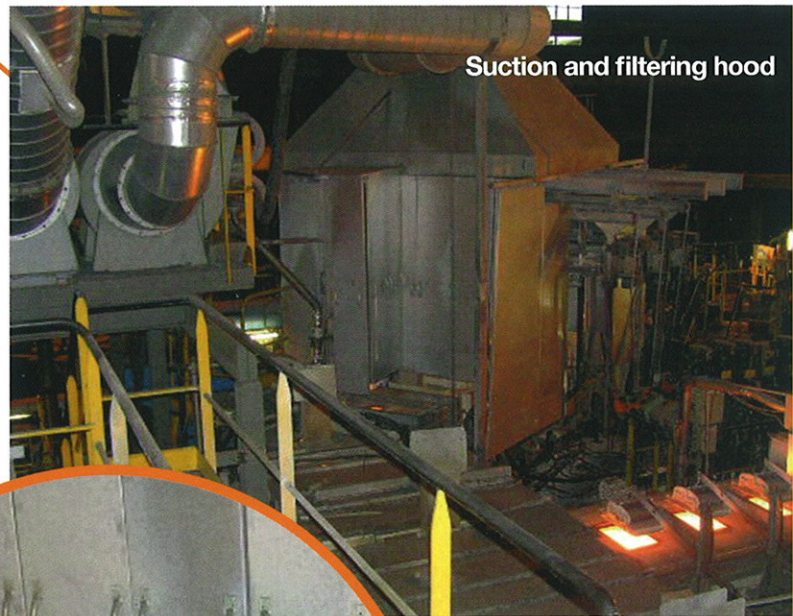

equipment integrator

Special scrapper for cullet handling

Dosing and reintroduction of dust

Suction and filtering hood

Colouring dosing systems

Colouring system arrangement

## A neat batch installation for a high-performance glass plant

- Define your specification for large installation
- Supply custom made colouring dosing equipment and cullet treatment
- Define your budget for installation
- Technology and know-how transfer
