## GLASS PROCESS & ON-SITE EXPERTISE

From raw materials to glass quality

**A leading initiative of a prestigious glass maker**

### **Overcoming the problems associated with your glass process:**

- Melting, refining and glass quality (bubbles, cords, stones)
- Forehearth conditioning (air/gas ratio, temperature profile, defaults due to infiltration of glass etc.)
- Technical consulting on furnace emergencies
- Technical consulting on energy management
- Environmental consulting
- Forecasting the next campaign, next rebuilt and performance enhancements

### **Expertise in various type of glasses:**

- Sodalime glass and colored glass
- Opale glass
- Borosilicate glass
- Vitroceramic glass
- Lead crystal glass & clear glasses

**AGMS**

ARC GLASS MELTING SOLUTIONS

# A WIDE RANGE OF SKILLS

for each step of the glass process

## On site monitoring:

- High temperature suction pyrometer
- Continuous waste gas analyser
- Collecting probes for glass sample
- High temperature thermocouples for continuous and spot-check measurements
